Rev. Edward Pinkney

Activist Rev. Pinkney was charged with election fraud on April 24, 2014, and accused by the Mayor of Benton Harbor James Hightower of forging signatures and dates on a recalled petition against Mayor Hightower. The prosecutor, Mayor Hightower, law enforcement, and Judge are all lap dancing together to silence Rev. Pinkney and other supporters from trying to Recalled Mayor Hightower, who just happen to be working for the corporate interest instead of the people's interest.

Rev. Pinkney was under house arrest, the Judge Schrock from Berrien County Ruling at the preliminary examination on June 5, 2014, that there was enough Circumstantial Evidence to bind this case over for trial. The stage setting in the Berrien County courthouse was a repeat. The continued persecution of a Community Leader Rev. Pinkney for the people, known worldwide. The clocks have been turned backwards again. Rev. Pinkney was charged with voter fraud in 2007, and arrested by law enforcement. Same year he was re-sentence because the courts ruled he violated his parole conditions, when he wrote an article about the court proceedings, and made a comparison using a Bible verse. He was sentenced to three to five years in prison, with the help of an aggressive legal team, subsequently he was released from prison within a year.
